Freshwater tank (litre): 2 tanks, in total 550 epoxy

Level indicator (freshwater): yes

Wheel steering: yes

More info on hull: West system

More info on paintwork: needs attention

Looking for a high potential refit project with great oceangoing capacity This very strong and solid 50ft is screaming for loving hands to bring her back where she belongs. West epoxy built - only first quality materials used, regardless any cost - give you your starting point.

Oversized winches, low engine hours, generator, water maker, etc. Most will work directly but all needs attention. In good condition a yacht like this would do 250K. Reserve 60K + purchase price, invest in project management or DIY and within some months of work, she will be the star of the sea again. Fixed price.
